## Over 200 Attended Meeting In Support of Dollar Wheat

Over 200 were in attendance at the mass meeting in Crossfield on Monday afternoon which was sponsored by the United Farmers of Alberta in their effort to secure \$1 a bushel for wheat. R. J. Laut was chairman and T. Tredaway welcomed the visitors; and, speaking for the board of trade, said that body was behind the move for improved farming conditions.

Frank Laut, M.L.A., outlined the difference between conditions faced by agriculture and those faced by other industries. Mr. George Church, executive member of the U.F.A., quoted from speeches of Dominion cabinet ministers to exemplify this year's decrease in western farmers' income.

Mr. Robert Gardiner, president of the U.F.A., reviewed the situation. In spite of the bonus, he said, farmers in Western Canada would receive \$50,000,000 less this year on wheat compared to last year's figures.

The meeting passed two resolutions. The first supported the four-point program of the western wheat pools and the second urged every individual to write the prime minister stating his own views on the matter.

### CROSSFIELD ATTENDANCE AT DEANERY MEETING

Several residents of Crossfield attended the Deanery meeting at Red Deer last Wednesday and they included Miss D. Robinson, G. T. Sifton, T. Tredaway, Rev. and Mrs. A. D. Currie. Rev. Currie is the Rural Dean and was chairman of the afternoon meeting of clergy and the laity while Mr. Tredaway was the chairman at the morning meeting of the laity. Mr. Tredaway is the representative on the executive committee of the Diocese of Calgary for the Rural Deanery of Red Deer.

Among the subjects discussed at the meeting were religious education in the schools of Alberta, and the greater use of laymen in the services of the church.

The Bishop of Calgary was present at the lunch and addressed the afternoon meeting with regard to finances of the church.

The meeting heard with regret of a vacancy in the Deanery.

At a former meeting of the Deanery held at Innisfail last May, a resolution was sent to the Diocesan Board of Religious Education to the following effect: "That the subject of religious education be kept continually before the public and that the leaders of the different religious bodies be contacted in the matter and that they get together with the Department of Education with a view to forming a syllabus.

The Dicks Patmore family has moved into their new home.

### RED CROSS TEA AND WORK EXHIBITION

The Crossfield and District Red Cross Branch held a very successful tea and exhibition of work in the United Church on Monday afternoon. Mrs. A. E. Edlund, vice-president, and members of the executive helped to serve tea.

The work shown was a splendid illustration of the loyalty and hard work of a number of women who are ceaselessly working for the Red Cross.

### CHEQUE ARTIST GIVEN EIGHTEEN MONTHS IN JAIL

Convicted on Wednesday in the Crossfield RCMP court, Andy Parayeko was sentenced to 18 months in jail on three charges. The conviction arose as the result of bad cheques being passed by Parayeko on two Crossfield merchants several weeks ago. Parayeko was found in Edmonton at the first of the week and was brought to Crossfield for trial by Cpl. D. Cameron.

## Telephone Co. Reviews Work

Directors of the Crossfield Mutual Telephone Company met Tuesday evening in the office of the secretary, T. Tredaway.

The meeting heard that the trunk line east of town had been entirely replaced in the past year and next year it is hoped the trunk line west of town will also be replaced. Last year's work on the company's holdings required a carload of poles.

The directors decided on the urgency of having a settlement made on all outstanding accounts by delinquent subscribers.

### MISSION BAND ELECTS SLATE

The Daisy Mission Band met on Tuesday in the United Church parlors. This was the annual meeting and the following slate of officers was elected: President, Mary Karen Edlund; vice-president, Barry Jones; secretary, Mary Fieldhouse; treasurer, Stanley Idm; reporter, Lois Gilechrist. The next meeting will be held on Nov. 4.

## Crossfield United Observes 36th Anniversary of Opening

### Hints on Swaths

—E.M.C.—

A well known farmer of the district and the writer were talking recently about swathed wheat.

I think his conclusions are well founded and worth passing on. He claims a swath laid straight on a six- to eight-inch stubble kept in the best condition. The grain went down but took the stubble with it and was so kept off the ground. Swaths laid crossways on a high stubble went down between the stubble and were badly sprouted.

Swaths laid straight on a high stubble kept better than the crosswise swath. There is no sure way to keep the swath from going down, but there does seem to be a way of placing it so that it will not grow or bleach too badly.

Some straw stacks have been burned this fall. Remember, that we are in the Straw Conservation Area. Straw must not be burned without permission from the Field Crops Commission at Edmonton.

Following is a concise but complete history of the Crossfield United Church as compiled and contributed to the The Chronicle by Rev. H. V. Ellison.

Crossfield United Church on Sunday and Monday, Nov. 2 and 3, will commemorate the 36th anniversary of the opening of what was originally a Methodist Church. The church was opened early in the winter of 1905. The first Quarterly Board was organized on Nov. 10, of the same year with Rev. E. J. Hodgins as superintendent and the Rev. F. J. Johnson as pastor. In 1906 the Presbyterian Church used the Methodist building, alternating the services. In 1907 Norman Vanderlander was appointed Record-Steward of the charge and he was a faithful worker. He later left to reside in Calgary. In July, 1918, the two bodies under the co-operative movement that was then working in both churches united into one congregation and formed the Union Church of Crossfield with Rev. H. M. Horricks as minister.

The appointments connected with the Crossfield charge when it became a Union church were Rodney, Elba, Bottrell, Beaver Dam, Sunshine and Crossfield.

In June, 1925, the Church became part of the United Church of Canada with Rev. R. Taylor as minister.

The Ladies' Aid has always been a strong asset to the Church and is now under the leadership of Mrs. E. Fox. The Church and community have been served by many capable ministers, including Revs. H. Johnson, W. A. Smith, J. P. Berry, H. M. Horricks, R. K. Swenerton, H. Young, E. Longmire, S. Hunt and the present minister, Rev. H. V. Ellison.

The church down the through the years of its history has, in joy and sorrow, depression and prosperity, served the community and district, and its friends wish it many more years of service.

### CROSSFIELD BOYS WELL RECEIVED AT CONFERENCE

The Trans-Canadian Boys' Conference sponsored by the Anglican, Baptist, Disciples, Evangelical, United and Presbyterian churches, in Calgary on Saturday and Sunday was attended by Rev. H. V. Ellison and the following Crossfield boys: Ken Belshaw, Robt. McAskill, Eldon Stafford, Gordon and Eldon McCrimmon, Murray Hurt, Gordon Reeves and Norman Patmore. When this delegation entered the hall at Knox Church on Friday evening the boys were given a hearty applause as they were the largest contingent from any outside point.

## Boys we've known since babies

● We see them board the train after their last leave home . . . boys we've known since they were babies. We say "Good Luck . . . we're all pulling for you", as we bid them Good Bye. But are we? Are we "pulling" . . . all we can? What are we doing to help them? Are we giving them the things they need so badly . . . ships and tanks and guns and planes and ammunition? Are we giving them all they need? That's one thing we can do . . . we who stay at home . . . one thing we must do. We

must provide the money so much needed to win the war . . . and one way to do that is to buy more War Savings Certificates.

The help of every Canadian is needed for Victory. In these days of war the thoughtless, selfish spender is a traitor to our war effort. A reduction in personal spending is now a vital necessity to relieve the pressure for goods; to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make; demands this self-denial of each of us.

Two weeks ago I tried to show that the belief in some sort of mysterious process which led to "going back" or "running out" of crop varieties was ill-founded. So far as wheat and barley are concerned, I believe that the necessity for renewal of seed is due to volunteering, mechanical mixing and occasional natural crossing. The proposal to discontinue naming all generations but the first of registered seed of self-fertilized crops is a recognition of this principle. So long as wheat and barley stocks will pass field and seed inspection, it is needless to worry about new seed.

Hybrid corn seed must be renewed each year because it owes its vigour to its immediate hybrid ancestry. If we were to produce hybrid seed of wheat and we could do so at a cost of about \$100 per bushel, it would be more vigorous and productive than the standard varieties, and it would "go back" in succeeding generations just as hybrid corn does. There is nothing mysterious about this.

Oats may be different. It seems likely that false wild oats may increase to the point where renewal of seed is necessary. This might be called going back, running out, or anything you like.

Three important imports to England from Scotland are Scotsmen, whiskey and seed potatoes. The Scotsmen drift in the rain, the whiskey flows in because it is welcomed, and potatoes are brought in because English potatoes "go back." This going back is due to the accumulation of disease necessitating the importation of disease-free seed. But after all, potato tubers are not seeds!

### WINTER COMING SHOWN BY SIGNS

One of the sure signs of coming winter has been observed and a relative duty performed by a majority of residents in the town. It is the carrying out, washing and putting on of storm windows—a job which requires, as a rule, the patience of several members of the household. Likewise general housecleaning portends a seasonal weather change.
